LEONARDO'S
CHILDREN'S MUSEUM
ENID, OKLAHOMA

All programs promote inquiry and process skills

Classes can include:

- Butterfly life cycles
- Food chains / Food webs
- Frog life cycles
- Magnets
- **Namometer** - Experiment and learn about the tiniest thing around, nanotechnology
- Oobleck / slime
- Rockets
- **Physics** - play and learn with pulleys, levers, wheels, axles, gears and more
- Space / NASA
- Steve Spangle "Sick Science"
- Squid dissection
- **Tinkering** - learn about electricity with circuit blocks, build bridges with K'Nex, or anything else children want to tinker with

Other learning opportunities:

Animal Safari

Leonardo's critters are an amazing tool for teaching science in a fun way. Content is customized by grade level with an in-depth concentration on individual species or groups by request. Travel with some critters may be limited with weather circumstances.

Energy

The Oklahoma Energy Resources Board (OERB) offers a FREE field trip to Leonardo's if teachers complete OERB curricula. The free field trip includes addmittance for students, teachers and partial to full travel reimbursement.

Tuition:

$88	One Class, up to 28 students at your school
$70*	Per class if 3 or more classes are scheduled consecutively the same day, same school.
$60*	Per class, up to 28 students if held at Leonardo's Children's Museum
$40	extra for a dissection class

*Classes have been correlated to Oklahoma Core Curriculum standards.

*Claasses are 45 minutes to 1 hour long

*Current mileage fee added for schools or grops outside of Enid city limits

*All supplies are included unless otherwise communicated
